Halloween can be a happy time for everyone—boys, girls, mothers, dads, property owners—(and even the police)—if this occasion can be celebrated with supervised community activities.

This can be accomplished with a minimum amount of planning and effort by holding 16mm film parties. The very finest of entertainment films are available and a Halloween Party planned around a special feature or a group of comedies and short subjects provides a positive approach to a potential problem. And the cost?—you'll find it reasonable and saved many times over by the reduction in property damage.

Halloween parties can be sponsored by your church, your school, a service club, or any organization interested in the wholesome activities of young people. Many families show movies at home on Halloween.

# Educational Films

## for Curriculum Enrichment

**THESE FILMS** have been carefully selected from the best of the world's leading producers of classroom films, in response to proven school needs. You may rent or borrow them through your nearest IDEAL PICTURES library.

Since new titles are constantly added to our library, we suggest that you check with IDEAL for ALL your film needs. If we do not have the exact title you desire, our experienced film bookers are well qualified to suggest an appropriate alternate selection.

**FILM SOURCES:** Films from major producers and distributors are so identified. A key to abbreviations used is provided on the last page. For a detailed description of any title, please refer to the producer's catalog or to the H. W. Wilson Company's comprehensive "Educational Film Guide."

**FILM INFORMATION:** Opposite each title are the **grade levels** for which the film is most suited:

P — Primary	S — Senior High
I — Intermediate	C — College
J — Junior High	A — Adult groups

In many instances, films are additionally useful at other levels or for such related purposes as teacher training, etc.

**Running Time** of each film is approximately 11 minutes (one reel), unless a figure appears in parentheses after the film title. This figure indicates the number of reels running time at approximately 11 minutes per reel.

**Color films** are identified by "(C)" after the title. All others are black-and-white. In many instances, however, color prints of b/w subjects are available; if color is desired, please indicate this on your order.

**RENTAL RATES:** This catalog quotes the "Base" Rate for those who order 10 or more rental films for use in one location only. If you are ordering fewer than 10 rental films, your "Base" Rate is increased by 50 cents for each b/w film and \$1.00 for each color film.

**1-3 Days' Use:** For better utilization of teaching films, you may retain each print for as many as three days at **no additional charge**, provided this is scheduled in advance.

**4-5 Days' Use:** Multiply your "Base" Rate by one and one-half. **6-8 Days' Use:** Two times the base rate. **9-14 Days' Use:** Two and one-half times the base rate. For longer rental periods, apply.

**Exceptions:** Films identified as **Dis** (Disney), **Fam** (Family), and a few others are available to all audiences for one-day use in one location at catalog rates. Add 50% of this rate for each additional day the film is scheduled.

**Free Films** are available **only** to audiences as listed under "grade levels".

**IMPORTANT:** Be sure to specify the number of days each film is wanted. Films will be scheduled for one day's use only, unless a longer period is requested, and users will be liable for overtime charges if films are held.

### HOW TO ORDER

- 1) Films are booked on a first-come, first-served basis.
- 2) Wherever possible it is well to give second and third choice show dates
- 3) If possible, name one or two alternate choices of film titles.
- 4) Film users pay transportation charges both ways.
- 5) Return label is enclosed with each film shipment. Please use this label in returning film.
- 6) We reserve the right to send collect telegrams or to reverse telephone charges when users do not return film on schedule.
- 7) The user assumes full responsibility for loss occurring while films are in his possession.
- 8) A small charge is made on each shipment to cover film damage. This protection covers damage up to, but not exceeding, \$15.00 per title.
- 9) Carefully note holidays when making film bookings.
- 10) Please return films without rewinding.
